

Hands On! Innovative YA Programming PLA VSS - March 20, 2013

Steve Teeri, HYPE Makerspace Conductor, Detroit Public Library
steeri@detroitpubliclibrary.org

Tips

Starting small is okay, activities can grow over time.

Partner with makers and DIY people in your community.

Attend local maker events, or host one at your library.

Have experienced instructors lead workshops.

Goal is to make learning, invention and creativity fun again.
