

MVLS/SALS Joint Automation Project
Access to POLARIS
June 29, 2018
Proposed May 14, 2025

Statement

The JA Council oversees and administers the automation project used by participating libraries in the Mohawk Valley and the Southern Adirondack Library Systems 58 libraries in eight counties. Access to POLARIS and the patron and bibliographic databases must be secure to meet the standards for the security and privacy for all patron records and to keep the network running efficiently and effectively.

All devices, whether used in the library building or used remotely that connect with POLARIS need to be clear of Malware or Viruses that could compromise the security of POLARIS including patron information.

Regulations

JA staff has the right to refuse allowing certain devices connections to POLARIS.

Only devices that are purchased in accordance to the JA Workstation Purchase and Support Policy can connect to the POLARIS ILS software.

Revision Approved by JA Council July 11, 2018

Approved by JA Council November 14, 2012

Approved by MVLS Board of Trustees November 15, 2012

Approved by SALS Board of Trustees November 20, 2012
